

1. Role and responsibilities

The Committee will:

- Provide insights and recommendations to shape the preparation of the ANZBP 3-year Strategic Plan. Refer to the ANZBP Governance and Administrative Arrangements document.
- Provide insights and recommendations to shape the preparation of ANZBP annual plans. Refer to the ANZBP Governance and Administrative Arrangements document.
- Track business plan and budget progress.
- Discuss emerging issues, trends and opportunities related to biosolids management.
- Discuss biosolids management and ANZBP risks and opportunities.
- Identify research and technical opportunities.
- Provide input into AWA Board updates.
- Review the performance of ANZBP.
- Support the ANZBP project officer to troubleshoot critical challenges.
- Support the ANZBP project officer and AWA International and Industry Programs team to respond to requests for information and advice from AWA's CEO and/or the AWA Board.
- Supporting the ANZBP Project Officer and AWA International and Industry Programs team to report to the AWA Board at least twice per year on:
 - The activities of the ANZBP
 - Biosolids management risks and opportunities
 - ANZBP risks and opportunities
- Convene at least four (4) times per year.

2. Limitations of Responsibility

The Advisory Committee shall play an advisory role – it is not an administrative body. The Advisory Committee is therefore not responsible for:

- Liaising with stakeholders or representing ANZBP on matters that fall outside the Program charter or are not included in the annual business plan activities or aligned with the 3-year Strategic Plan.
- Authorizing expenditure for ANZBP activities that are not already detailed and approved in the annual plan and budget. Refer to the ANZBP Governance and Administrative Arrangements document.
